

Application for Blasting Permit Preliminary Prerequisite Checklist

Initials

- _____ Applicant must file with the City a public liability insurance policy certificate in the principal sum of one million dollars (\$1,000,000.00) covering personal injury and one million dollars (\$1,000,000.00) covering property damage, for the purpose of payment of damages to persons or property which arise from, or are caused by, any act authorized by the permit upon which a legal judgment results.
- _____ Applicant must file with the City Police and Fire Departments written notifications of the storage locations, means of security, and dates of storage of all explosives. A copy of the written notification must be filed with the permit application
- _____ Adjoining property owners within 350 feet of the blasting site shall be notified by certified mail by the site operator. Certified mail receipts will be turned in to Development Services Department prior to issuance of permit. (Notice is not required if the structures are owned by the Applicant)
- _____ A pre-blast survey shall be conducted on all structures within 350 feet of the blasting area. The survey shall be conducted by a professional engineering firm qualified to do such a survey and the survey shall be done in accordance with current industry standards.
- _____ Whenever blasting is being conducted within 50 feet of utility lines or rights-of-way, the blaster shall notify the City at least 24 hours in advance of blasting, specifying the location and intended time of such blasting. Verbal notices shall be confirmed with written notice. The time limit shall not apply in an emergency situation, if approved by Development Services.
- _____ Blasting operations shall be conducted by approved, competent operators familiar with the required safety precautions and hazards involved. Permit applications will specify the credentials of the Applicant and or blasting subcontractor and will be certified in writing by the Applicant.
- _____ A pre-blast survey shall be conducted on all structures within 350 feet of the blasting area. The survey shall be conducted by a professional engineering firm qualified to do such a survey and the survey shall be done in accordance with current industry standards.

_____ Applicant acknowledges that he/she has received a copy of the City's Blasting Ordinance and understands the requirements contained there in. Applicant further acknowledges that the issuance of a permit by the City in no way obligates the City for any liability for damages due to blasting activities, and that any damages caused by blasting activities are the sole responsibility of the applicant.
